

junction box**KPR 68/71L****product description:**

designed for distribution system with voltage 400 V and with maximum current 16 A
 easy installation of devices with big depth
 easily clamp under the device using screwless terminals or terminal plate
 join into a continuous series with a spacing of 71 mm
 connectible with the box KU 68/71L
 jointed boxes can be interconnected using single insulated wires
 integrated tip to mark the centre of drilling
 when mounting, it is not necessary to countersink the plasterboard edge
 mounting screws are fitted with a triple thread for quick installation
 allows to install double-socket

material: PVC (Pb Free)

color: yellow

self-snuffing: yes, within 30 s

temperature resistance: -5 - +60 °C

flaming loop test: 850 °C

fire class for underlying material: A1-F

weight: 52 g

certification: EN 60 670-1

storage: ČSN 64 0090

configuration: NA - individual boxes fitted with screws for mounting into double wall - package: 60 pcs boxes loose in cardboard

accessories: cover V 68
 terminal plate S-66
 screwless terminal plates TYP015, TYP016, TYP017, TYP018

auxiliary tools: drill for hollow walls - set VDS 68 (universal carrier VPTU + saw-drill VPT 68 + spring P1)
